New Strawberry Varieties for Pleasure and Profit

We are growing many new varieties from the New Hampshire, Maine, New York, Illinois and other agricultural Experiment Stations. Four new ones are listed this spring; other new ones in our next list.

Great Bay (Simcoe X Catskill) New Hampshire Station - Especially liked for its large size and late ripening. Its peak yields come a week after Howard 17. Plants are exceptionally large. Berries average very large. It is red inside and makes a good frozen product.

Vermilion (Illinois Station) Berries early, medium to large size, smooth and glossy, above average in quality, red and very attractive. Plants are vigorous; set runners well; red stele resistant; good yielder.

Empire (Dresden X Sparkle) New York Station. Best of their 1951 releases. Berries large, maintain size well; light glossy red and very attractive. Ripen 4-6 days later than Howard 17. Plants vigorous, set ample number runners and bear heavily.

Howard 17 (Barnstable Strain) This strain is said to be freer of virus than the old strains and to give a heavier yield for this reason.

The above four varieties are available for trial in small quantities. Prices below are postpaid but if you order a total of over 100 or if you live outside the northeast, we recommend express shipment in which case deduct 10% from prices below.

Postpaid prices	10	25	50	100
Vermilion and Empire	\$1.75	\$3.50	\$6.00	\$11.00
Great Bay and Special Howards	1.25	2.25	4.25	7.75

Durham Everbearing Red Raspberries (N.H. Station) Undoubtedly the best early fall-bearing red raspberry for the north to date. Starts bearing on new canes, the first year set, in late August here. Berries, large, conic. Also bears on old canes in July but the fall crop is the best. We are sold out of the medium size. Our small plants have good roots and will give good results but may not bear the first year.

	10*	25*	50	100	500	1000
Small size	\$1.95	\$3.50	\$6.50	\$12.00*	\$55.00	\$100.00
Large size	3.95	7.85	12.85	20.00	97.50	--

*Postpaid - others express collect.

Jones Hybrid Filberts (Seedlings) The Jones hybrid filberts have proved entirely hardy and satisfactory for our cold area and they bear at an early age. Buy two or more varieties or plant with hazelnuts for cross pollination.

Winkler Hazelnuts (Seedlings) The hardiest, earliest and heaviest bearing of the varieties tried. Bear right in the nursery row.

Price of each in lots of:	1-2	3-4	5-9	10-24	25 up
Winkler seedlings (about 3')	\$2.25	\$2.00	\$1.75	\$1.50	\$1.25
Filbert " " "	2.75	2.50	2.25	2.00	--

HARDY CHRYSANTHEMUMS FOR THE NORTH

Varieties: We are listing 53 varieties of hardy chrysanthemums that have been especially selected for growing in the north where seasons are short and winters are severe. These start blooming from the middle of August until the end of September and most of them will bloom until freezing weather cuts them short, usually about the end of October. New Hampshire originations have proven super-hardy and these, plus a few others proven equally hardy are marked with an asterisk*. These have wintered well for us without covering. We do, however, consider it preferable to cover most varieties with coarse straw or pine or evergreen bows and particularly when set late in the year.

TYPES OF PLANTS: Prices below are for rooted cuttings but we can furnish transplants or divisions on varieties marked # at 50% over rooted cuttings. If dirt is desired on roots (express collect only).

In case you are not familiar with varieties - may we suggest these:

Color group	Extra early	Cushion Types	Extremely hardy	Fine for cutting
White	Candlelight	Powder Puff	Candlelight	Chris Columbus
"	Moonlight	Nanook	Nanook	Sincerity
Pink	Dean Kay	Major Cushion	Arbutus	Major Cushion

Opportunities in chrysanthemums

Great improvements have been made in hardy chrysanthemums in the last few years. These include many new hardy hybrids for the north. Many people are not familiar with their possibilities. There is an excellent opportunity around every town for someone to grow plants for sale as plants or cut flowers. They make an excellent hobby for back yard flower gardeners. The market in the north has scarcely been touched as yet.

Time of blooming is important as well as hardiness. We have selected varieties that will provide a longer blooming period in the north. A great many varieties are entirely unsuited because they bloom too late. We shall add other varieties as we find suitable ones, and many not listed above will be found at our nursery.

Lawrence A Dougherty
Pine-Croft Nurseries

Fruit trees; vines; other small fruits

Blackberries especially suited to north; 10 - \$2.50; 25 - \$4.75

Cultivated Blueberries (nursery only) \$1.00 up.

Best varieties pears and plums (nursery only) 5' and up; \$1.85 each.

Red Rhubarbs; Canada; McDonald; Valentine - Div. 50¢; whole plants, \$1.00 up.

Ornamental shrubs and vines:

Bittersweet (4 yr. vines) Have borne heavily; \$1.50 each.

Big Leaf Wintercreeper; To 6"-35¢; 6"-12" - 50¢; over 12" - 75¢.

Common Blue Lilac: 5' and up \$1.50

French Hybrid Lilacs (all colors) 3' - 4' - \$1.85; over 4' - \$2.50 up (nursery)

Sweet Mock Orange; 3' - 4' - \$1.25; over 4' - 1.50 (all have bloomed)

Gladiolus bulbs: Fine all color mixture of large and extra large bulbs

selected from our stock of over 100 fine named varieties; 10 for 75¢;

25 for \$1.25; 50 for \$2.00; 100 for \$3.75 - (Prepaid)

Hardy Perennials - Miscellaneous Kinds

In addition to hardy chrysanthemums (our specialty) we carry a number of other perennials. These are for sale at the nursery only. Price approximate the following: Transplants 25¢ - 50¢; Field clumps 35¢ - 75¢

Ajuga	Coreopsis	Iris	Primroses
Anthemis	Delphinium	Lupines (Russell)	Pyrethrum
Campanula	Dianthus	Peonies	Rosy Milfoil
Carnations	Gallardia	Phlox (Tall)	Shasta Daisy
Columbine	Heliopsis	Phlox (Ground)	Violas

(Rock Garden plants in a number of varieties.)

Shipments - (Hardy chrysanthemums) - April and May only for rooted cuttings.

Other plants to May 15 only. Shipped express collect unless otherwise stated. or requested. Add 10% for mail shipments not prepaid. Add 20% on chrysanthemum cuttings if by air parcel post. Excess postage will be refunded. All mail shipments at purchasers' risk as mail shipments cannot be insured.

Write immediately on any shipment received in poor condition, and if by express also file claim. Purchases at nursery throughout the season.

Payment: Cash with order but subject to a 3% discount where over \$10.00

Minimum orders: 25 chrysanthemum rooted cuttings or 2.00 any order.
